

Irresist-A-Bowls I

Linda Johansen
758 - 9333 e: lindajo@peak.org

You will make two styles of bowls in class. Please check the supply list carefully, and call or email me if you have any questions.

Supply List:

sewing machine **in good working order** and able to do zigzag stitching

****open toed embroidery foot for your machine****

optional - darning foot for your machine if you have one

sewing machine needles: size 80/12 or 90/14 - **top stitching**

one old machine needle

3 + extra bobbins

threads; cotton or polyester, etc... **whatever you are comfortable using** - this is **NOT** the time to experiment with new threads! I use Isacord polyester & Mettler cotton

white thread for sewing stiff interfacing together

scissors for thread & fabric cutting

double curved, duck billed appliqué scissors; optional, but an excellent tool

school compass and round template, or 1" x 12" rotary ruler and yardstick compass - we will be making a 12" circle

pencils for marking fabric (marks will not show, #2 pencil & white marker are fine)

seam ripper

rotary cutter (6" x 12" is adequate for this class) & large rotary cutting mat (18" X 22")

equilateral triangle ruler (Sara Nephew, ClearView works great)

temporary spray adhesive for fabric

hot iron cleaner

ironing protective sheet - to protect ironing board (I use June Tailor, 18" sq)

extra irons & ironing boards would be helpful - bring a cloth to cover & protect the surface of your board

3 yards of cording, yarn, or string - about the same thickness as your stiff interfacing

Freezer paper (12"- 18" piece)

Heavy duty extension cord & strip

Fabric:

(Minimum of 2 fat quarters each for two bowls - 4 fat quarters total)

The more you bring the more choices you will have.

½ yard of heavy COTTON canvas, denim or duck fabric. Do not wash it! If it is already washed, spray starch one side of it, and mark or remember which side.

Please be brand specific on these two:

Timtex or Fast2fuse (heavyweight if it is available to you) (@ ½ yard) - do not get heavy duty interfacing!

Wonder Under, @ 2 yards - Steam-a-Seam and Heat & Bond brands do not work well for the bowls. If you are using fast2fuse, you will need one yard of Wonder Under.
